Council met with the Honourable George Groenveld, Minister of Agriculture on April 18th and the Honourable Ted Morton, Minister of Sustainable Resource Development on April 25th to discuss common concerns for our M.D. Both meetings were extremely satisfying as we exchanged thoughts on the problems and the great things that are happening in Alberta and more importantly in our M.D.

To all the farmers and gardeners, have a great growing season; to the golfers a great score; to the horsebackriders and cyclists, an enjoyable ride; and to all the rest of you may you enjoy this Spring and Summer doing what you like to do the most. Have fun visiting the Millarville Market and events planned at the Race Track too.
